## DEAN MCMURRAY THE MILITARY MEDIUM

Dean McMurray—“The Military Medium”— is an internationally acclaimed psychic, medium, healer, dowser and ordained minister. His story, so powerful and so authentic, is unlike any other psychic medium out there, and it's why people from all across the globe are drawn to him for readings and personal guidance. So what's his story... why is he the psychic so many trust?

### DEAN'S STORY

Spending most of his childhood in northern Minnesota, Dean developed a deep love for nature and his country. That love of country inspired him to enlist and serve 24 years in the United States armed forces. Dean's service brought him overseas on several occasions, the last of which awakened his psychic abilities and set him on a new path in life... a new mission with new marching orders.

After returning from his last overseas tour, Dean's deceased grandmother paid him a visit. She had a message for him: you are a medium, Dean, and it's time to get to work. There were no words. No sound. But the message was as clear as any he'd ever heard. It came straight from his grandmother's immortal heart to his own.

### WHAT DOES DEAN DO?

With this new directive, Dean retired from the Army and enlisted in a new service—he devoted his life to developing these newfound psychic abilities in service to others. Today, Dean conducts readings for clients throughout the world, teaches mediumship classes, presents at regional symposiums, conferences and workshops, and he is currently working on his first book.

# Described as “spooky accurate,” Dean has helped hundreds of clients connect with their loved ones and receive messages of hope, love, peace, healing and inspiration. Hear what his clients are saying...

*"The information Dean shared with me validated the questions I had in my heart about my life's path and the journey I was not moving forward on. He gave me insight that my conscience, friends and family could not fathom. He uncovered a hole that my heart was aching to have filled. With the advice, insight, guidance and validity he gave me I was able to see my world from a different view and heal my pain. Life changing."*

*~ Client D, Fargo, ND*

*"I was recovering from a shoulder surgery. Things weren't going as well as I hoped. Dean told me that he was guided to do a Spiritual Healing. I had never done anything like this before, but I trusted him and wanted help with the pain and to speed up the slow moving recovery. After a few minutes into the session, I felt a warm feeling come over me. I also had visions of ropes that released around me, I had some relief that night and had another session the next night. I have learned to relax and listen to my body. Thank you Dean for getting me onto the path to a full recovery."*

*~ S. H., Ontario, Canada*

*"Dean helped me to connect to my mom, who passed away in 2001. I felt so many emotions and received absolute affirmation that I was truly hearing from my mom and other cherished loved ones. The messages he passed along to me left no doubt in my mind that the people I love who have crossed over are there supporting me and giving me the strength I need to navigate through life. Dean has an amazing gift. He gave me something I thought I'd never have again - the ability to visit with my mom! And it was absolutely beautiful."*

*~ R. P., Bismarck, ND*

*"Dean has opened my eyes to a whole new world. Not only has he helped me find myself, but he has been able to connect with my loved ones who have passed away. He knew things that no one else knew but me. The messages he received from them was very eye opening. It definitely gave me peace to hear from them again."*

*~ J.S., Fargo, ND*
